TECHNICAL SKILLS

Languages: C, Java, Python, SQL, JavaScript, HTML, CSS

Frameworks & Libraries: FastAPI, React.js, sentence-transformers, scikit-learn, pdfplumber

Tools & Platforms: Git, Docker, nginx, Vite, Linux, LaTeX, Arduino, VS Code

Soft Skills: Problem Solving, Team Collaboration, Technical Writing

ACHIEVEMENTS

Women Engineers Program – TalentSprint & Google

Feb 2024 – Mar 2026

WE Scholar '24 | Top 200 of 30,000+ Applicants | 100% Scholarship | Remote

- Competitively selected among the top 250 scholars from a national pool of 30,000+ applicants, placing in the top 200 first-year B.Tech female engineers across India.
- Pursued a 2-year intensive professional development program featuring structured bootcamps, technical assignments, and one-on-one mentorship with Google Engineers.

Codess Cafe

2024

Technical Mentee | Software Development | Remote

- Selected as a mentee in Codess Cafe's structured technical mentorship program, gaining hands-on guidance in software development, project building, and industry best practices from experienced engineers.
- Collaborated on real-world projects and participated in peer learning sessions, strengthening problem-solving skills and exposure to modern development workflows.

ICSE Class X – School Topper

Mar 2021

97.8% | Subject Topper in Physics & Mathematics

- Achieved 97.8% in the ICSE Class X Board Examinations, securing the highest marks in school with subject toppers in Physics and Mathematics.
- Recognized as School Topper, demonstrating consistent academic excellence and a strong foundation in Science and Mathematics from an early stage.

PROJECTS

ResuMate – AI Resume Intelligence Platform | *Python, FastAPI, React.js, SQLite*

Mar 2026

- Designed and developed a full-stack resume analysis platform scoring resumes against job descriptions via a custom multi-factor ATS algorithm (keyword matching, semantic similarity using sentence-transformers, quality scoring, and experience fit), integrated with Anthropic Claude 3.5 Haiku as a real-time streaming chatbot over SSE — enabling context-aware resume coaching with persistent conversation memory and a rule-based offline fallback.
- Implemented JWT-based user authentication with PBKDF2 password hashing, per-user analysis history, and live job matching via SerpAPI — deployed end-to-end using Docker Compose with an nginx reverse proxy.

ORBIT – Cybersecurity Learning Platform | *HTML, CSS, JavaScript*

Nov 2025

- Collaborated on a gamified Blue Team learning platform covering SOC operations, SIEM, Incident Response, Digital Forensics, and Cryptography – with curriculum aligned to NIST NICE Framework competencies and MITRE ATT&CK.
- Implemented a role-based progression system (Novice → Hacker → Wizard) with persistent progress tracking, delivering a free, offline-ready alternative to expensive Blue Team training platforms.

EDUCATION

Manipal University Jaipur

Jaipur, Rajasthan, India

Bachelor of Technology – Computer Science and Engineering | CGPA: 8.19 / 10.0

Jul. 2023 – May 2027

- Relevant Coursework:** Data Structures, C Language, Networking, Object-Oriented Programming (Java), RDBMS, Entrepreneurship, Machine Learning, Cybersecurity, Secure Programming
